Subject: Hi Steve - Would it be ok to also add your name to the fact-sheet on Navy/ Northrop Grumman?

Hi Steve - I was wondering if we could add your name as a DOH contact person? Since a lot of the questions from the public are health-related, I figure that if we added your name, the public would be able to reach you without having to call EPA or DEC first. If you aren't comfortable with including your name, we can keep the contacts as they are.

Thanks,
-Carol-
